

DaSSH4: Hackathon Preparation

Hackathon activities

This is just a suggestion....

- Thursday
  - LogicaHealth & CIBMTR Reporting App
- Friday
  - Direct FHIR API
  - HLA to FHIR
    - HML2FHIR
    - TARR2FHIR

NMDP Okta logins

- Two applications require NMDP Okta logins
  - CIBMTR Reporting App (LogicaHealth)
  - HML Gateway – HML2FHIR

- Temporary user accounts and passwords sent to hackathon participants.
  - Same username/password works for both applications
  - No MFA needed

REST API authorization tokens

Access information sent to hackathon participants

- Direct FHIR API
  - Application Client ID
  - Application Client Secret
  - Application Client Scope
  - Service Account Username
  - Service Account Password

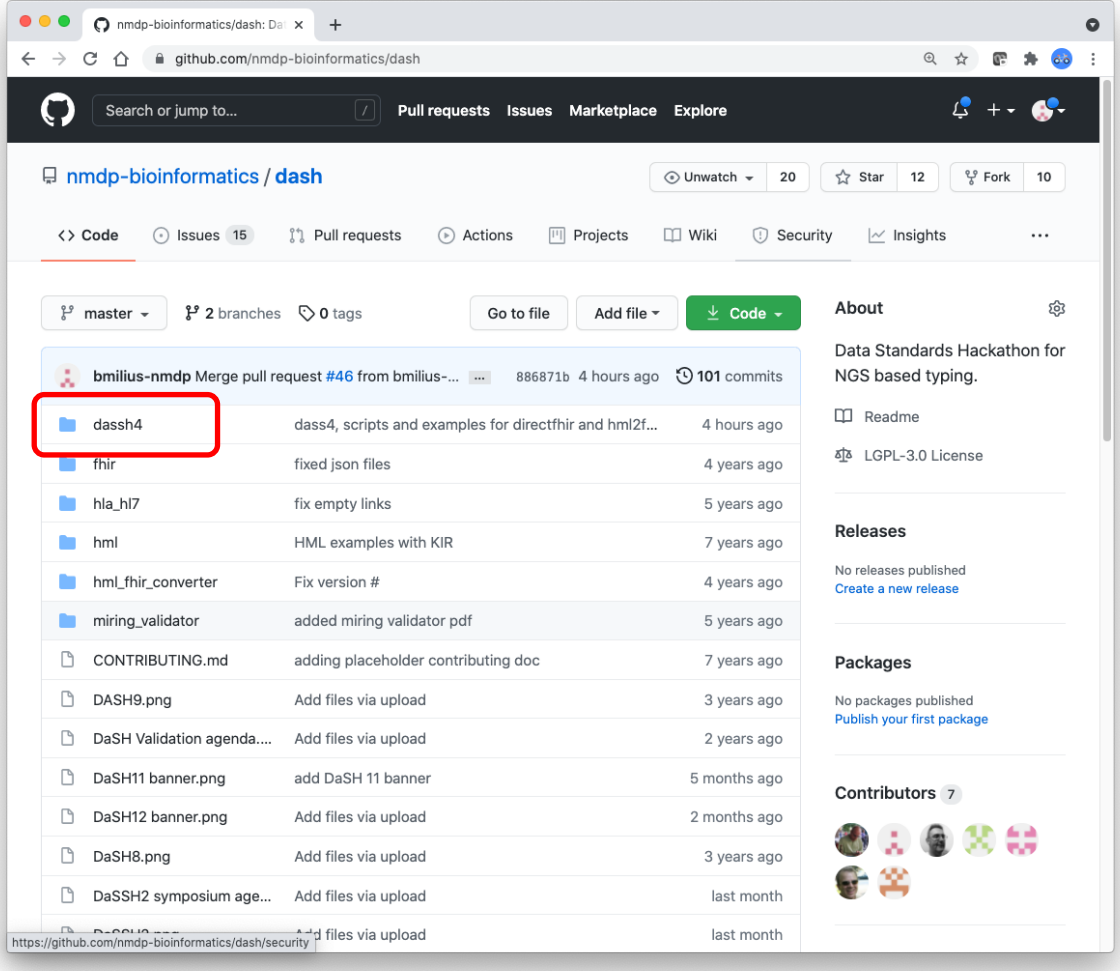

Needed to generate Bearer token

- HML Gateway API (used for HML2FHIR)
  - Refresh Token

Why LogicaHealth?

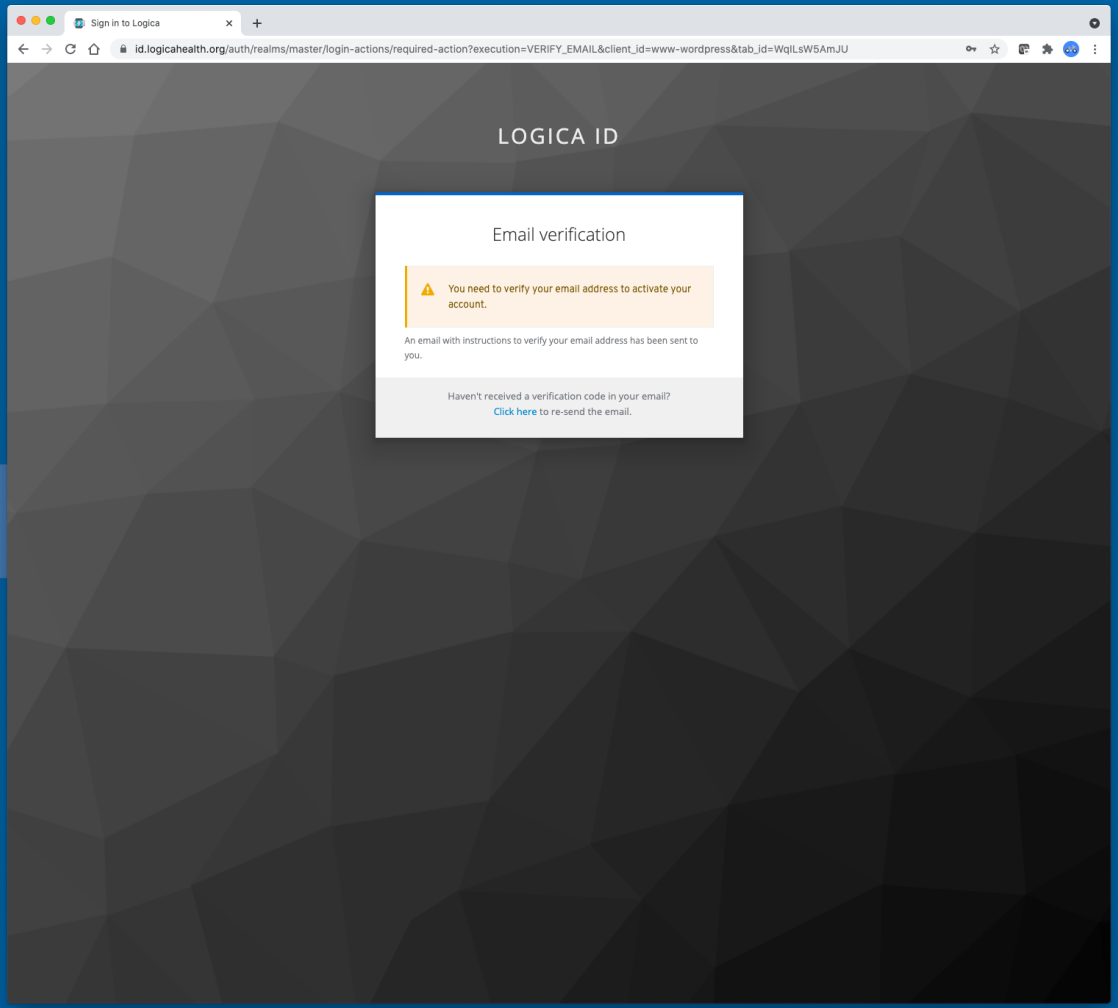

- EHR simulator with thousands of synthetic Patients
  - Synthea
  - SMART-on-FHIR platform
- Flexibility in creating example Patients with data
  - QA & Testing different scenarios
  - Testing scalability
- Lowest common denominator for development
  - starting point for developing for other EHRs
  - make vendor specific changes only when necessary
- Provides a **free** playground for those that don't have Epic

Upcoming Events
There are no upcoming events at this time.
HIGH PRIORITY – COVID-19 FHIR IG released April 3, 2020
COVID-19 Interoperability Project
Our Mission
To improve health by creating a vibrant, open ecosystem of interoperable applications, knowledge, content, and services.
Our Vision
To be a provider-led organization accelerating the delivery of a platform that supports innovative healthcare applications for the improvement of health and healthcare.
An open culture that..
Supports both proprietary and open source infrastructures with a component based approach
Provides the market at large all common assets deemed necessary to promote the standard
Roadmap to Plug-and-Play Interoperability
Logica Health supports a plug-and-play model for interoperability based on a SOA platform with a solid reference architecture. The path to get to a true interoperability
requires a mult
phased evolution

Solutions » FHIR Sandbox
By: preston.lee / On: 2019-04-04
The FHIR Sandbox is a free service provided by Logica Health for the FHIR community to develop SMART-on-FHIR and other FHIR-backed applications. Web-based GUIs, an EHR simulator, and full OAuth support provide a easy-to-use environment for developers of all skill levels.
Launch The Logica Sandbox Now!
The Logica Sandbox is also available for download to run locally!

Terms of Use & Privacy Statement
Logica Platform Terms of Use
Last Modified: 04/05/2020
Acceptance of the Terms of Use
These terms of use ("Terms of Use") entered into between You and Logica, Inc. ("Logica", "we" or "us"), govern your access to and use of our software and application development platforms, including http://www.developers.logicahealth.org/ and https://sandbox.logicahealth.org (collectively, the "Platforms").
Please read the Terms of Use carefully before you start to use the Platforms. By using the Platforms or by clicking to accept or agree to the Terms of Use below, you accept and agree to be bound and abide by these Terms of Use and our Privacy Policy, found BELOW, incorporated herein by reference. If you do not want to agree to these Terms of Use or the Privacy Policy, you must not access or use the Platforms.
Also, the Platforms are offered and available to users who are 18 years of age or older and reside in the United States or any of its territories or possessions. If you are not 18 years old or older, or do not reside in the United States or any of its territories or possessions, do not use the Platforms.
Changes to the Terms of Use
We may revise and update these Terms of Use from time to time in our sole discretion. All changes are effective immediately when we post them, and apply to all access to and use of the Platforms thereafter. Your continued use of the Platforms following the posting of revised Terms of Use means that you accept and agree to the changes. We encourage you to check these Terms of Use often for updates.
Accessing the Website and Account Security
Access to the Platforms is provided to you solely for the purpose of developing healthcare software applications. We reserve the right to withdraw or amend the Platforms, and any service or material we provide through the Platforms, in our sole discretion at any time without notice. We will not be liable if for any reason all or any part of the Platforms is unavailable at any time or for any period.
To access the Platforms or some of the resources it offers, you may be asked to provide certain registration details or other information. It is a condition of your use of the Platforms that all the information you provide on the Platforms is correct, current and complete. You agree that all information you provide to register with the Platforms or otherwise, including but not limited to through the use of any interactive features on the Platforms, is governed by our Privacy Policy (See Below), and you consent to all actions we take with respect to your information consistent with our Privacy Policy.
If you choose, or are provided with, a user name, password or any other piece of information as part of our security procedures, you must treat such information as confidential, and you must not disclose it to
